SUMMARY

Driven Software Engineering undergraduate passionate about Cyber Security, networking, and modern web technologies. Experienced in building full-stack applications, working with databases, automating workflows, and developing secure software solutions through academic and personal projects. Strong analytical mindset with hands-on exposure to Linux environments, REST APIs, data analysis, and deployment practices. Seeking opportunities to contribute technical, problem-solving, and collaborative skills within the tech industry.

SKILLS

Programming & Development

C#, Python, JavaScript, Node.js, HTML/CSS, Java (Basics), REST APIs

Databases

MySQL, SQL Server

Data & Analytics

Python (pandas, scikit-learn), Power BI, Data Analysis, Excel

Tools & Technologies

Selenium, Playwright, Git, Jupyter Notebook, Office 365, Linux

Security & Networking

Networking Fundamentals, Basic Cyber Security Concepts, System Troubleshooting, Data Protection, Vulnerability Awareness, Secure Development Practices, monitoring

Core Competencies

Analytical Thinking, Problem Solving, Attention to Detail, Communication Skills, Team Collaboration, Project Planning,

PROJECTS

Used Car Price Prediction for Ikman.lk - 2025

Link - <https://github.com/kishava/CarPrice-PredictionModel.git>

- Engineered a regression pipeline for real-time price suggestions with a Mean Absolute Error of ~LKR 130,000.
- Implemented data preprocessing and diagnostic visualizations to optimize model performance.

EcoRide Bicycle Rentals Website - Full Stack Development - 2025

Link - <https://github.com/kishava/EcoRide-BikeRental.git>

- Developed and deployed a full-stack web application with RESTful APIs and MySQL backend.
- Deployed the application using InfinityZero, handling build configuration, deployment, and basic troubleshooting in a live environment.

North Sussex Judo Fee Calculator - 2024

Link - <https://github.com/kishava/FeeCalculator-for-JUDO.git>

- Developed a fee calculator enforcing business rules and generating PDF reports.
- Applied modular algorithm design, input validation, and testing.

Student Management System for Skills International - C# Development - Sep 2023

Link - <https://github.com/kishava/Skills-International-.git>

- Built a secure C# Windows Forms application integrated with a SQL Server backend.
- Implemented full CRUD operations and automated reporting features for administrative use.

PROFESSIONAL EXPERIENCE

Data Entry Operator - Marjans Marketing	AUG 2022 - DEC 2023
• Maintained and validated operational datasets to ensure data accuracy. • Assisted in preparing structured reports for management decision-making. • Identified inconsistencies and supported resolution of data-related issues. • Collaborated with cross-functional teams to improve workflow efficiency.	

EDUCATION

BTEC Higher National Diploma in Computing	June 2024 - Dec 2025
Saegis Campus	
Advanced Certificate in HRM	2023- 2024
Open University of Sri Lanka	
Diploma in Information Technology	2023- 2024
Esoft Metro Campus	

CERTIFICATIONS

- SOLO Learn SQL Certificate
- AWS Academy Cloud Programme (In Progress)

CO-CURRICULAR ACTIVITIES

Assistant Secretary, Rotaract Club of Saegis Campus	2025 – Present
• Coordinated team activities, managed communications, and supported event planning and execution.	
Chief Editor, Lingua Lounge (English Club)	2025 – Present
• Led content planning, managed deadlines, and coordinated with multiple contributors to ensure timely delivery.	
Chief Editor, ICT Club of Saegis Campus	2025 – Present
Member, AIESEC, Saegis Campus	2025 - Present
Certified Sharpshooter, Academic Air Arms Association	2025

LANGUAGES

English, Tamil, Sinhala

REFEREES

Referees available upon request.
